

THE SUPPLY CHAIN LEADERSHIP PROFESSIONAL Degree

Diving in Deeper

In 2017, we led a group of industry heavyweights, including Coca Cola, Asos, and Nestlé, who joined forces to design a forward-thinking apprenticeship standard.

The 'Supply Chain Leadership Professional (Integrated Degree)' was approved for delivery in 2018. We were the first provider to start delivering it.

Since then, we've welcomed over 300 learners (and counting!) from a wide range of organisations, including Airbus, Royal Mail, PepsiCo, Superdry, AstraZeneca, BT, Uniserve and BAE Systems.

Development

Our work-based degree programme offers a unique experience and insight that you can't find anywhere else.

Seasoned professionals help learners develop the essential knowledge, skills and behaviours required to excel in senior supply chain roles. Core topics include operational design ;

demand planning and forecasting; network design; logistics; technology; global trade, and finance.

We deliver the programme in partnership with reputable universities in the north and south of the UK.

Features

Supply Chain Academy

Part of the GB Global Group, Supply Chain Academy specialises exclusively in the supply chain and offers the only global learning centre to focus purely on the subject.

Facilities include the historic Upminster Court, a beautiful Edwardian building in which to learn and stay. Whether enjoying the extensive gardens or

sharing experiences in the glass-roofed bar, there is no better place reflect after a day of learning.

As the go-to option for supply chain training for over 20 years, Supply Chain Academy have supported the development of people from SMEs to multinational operations such as Shell, Mitsubishi, Thomson Reuters, and BP.

Email info@supplychainacademy.org.uk to learn how Supply Chain Academy could develop your organisation

“

'I have gained great practical experience through the group activities and have been able to apply concept to the workplace. The tutors are experienced and knowledgeable, and the support structure is great!'

Aimee Plant, BAE Systems

“

'The tasks helped me explore how activities work together within our organisation. I examined our own Value Chain and implemented changes that had an instant impact for the organisation.'

Pete Taylor, Barfoots
